Track Rider

Developed by,

Indra Chawaria &
Pankaj Makhija

- **Back in the day, Riding & Touring was not popular.**
- **Now-a-days, Vehicles are basic necessity.**
- **Riding Community growing faster than ever.**
- **Need for products which eases riding or touring.**

Introduction

Objectives

- **Share live location of riders with each other.**

- **Can be used as an alternate to Google Maps.**

- **Can also be used by people to share & see location of other people.**
